Dear Sir:

Filed herewith is an application for reissue of US Patent No. 6,320,214 in the name of inventors Akihiro Matsuda, Yoshihisa Nagano and Yasuhiro Uemoto. The owner of the entire right, title and interest in this patent is Matsushita Electric Industrial Co., Ltd. by virtue of merger with the original assignee Matsushita Electronics Corporation, as recorded at Reel 011987, Frame 0526. The original assignment to Matsushita Electronics Corporation is recorded at Reel 9878, Frame 0036. The filing of the Reissue Declaration and the Consent of Assignee are deferred. This reissue application is filed because the originally granted patent may be partially inoperative for failing to claim all that the inventors were entitled to claim.
